**DETAILED ACTION**

***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-34, drawn to the compound of formula I in claim 1 where R1 is H, alkyl, alkenyl, haloalkyl, R2 is H, alkyl, alkenyl, alkoxy, hydroxy, halo, haloalkyl, R3 is SO<sub>2</sub>R<sub>12</sub>, R<sub>12</sub> is as claimed, Ar is phenyl substituted with halogen or alkoxy, A is S, O, S(O), S(O)<sub>2</sub>, a pharmaceutical composition, a method of treating, and a process of preparing a compound of formula I with the substituents defined as above, classified in class 546, subclass 155.
- II. Claims 1-34, drawn to the compound of formula I in claim 1 where R1 is cycloalkyl, hydroxy, hydroxyalkyloxy, haloalkyloxy, R2 is H, alkyl, alkenyl, alkoxy, hydroxy, halo, haloalkyl, R3 is SO<sub>2</sub>R<sub>12</sub>, R<sub>12</sub> is as claimed, Ar is phenyl substituted with halogen or alkoxy, A is S, O, S(O), S(O)<sub>2</sub>, a pharmaceutical composition, a method of treating, and a process of preparing a compound of formula I with the substituents defined as above, classified in class 546, subclass 156.
- III. Claims 1-34, drawn to the compound of formula I in claim 1 where R1 is –OSO<sub>2</sub>R<sub>11</sub>, R<sub>11</sub> is as claimed, R2 is H, alkyl, alkenyl, alkoxy, hydroxy, halo, haloalkyl, R3 is SO<sub>2</sub>R<sub>12</sub>, R<sub>12</sub> is as claimed, Ar is phenyl substituted with halogen or alkoxy, A is S, O, S(O), S(O)<sub>2</sub>, a pharmaceutical composition, a method of treating, and a process of preparing a

compound of formula I with the substituents defined as above, classified in class 546, subclass 153.

The inventions are distinct, each from the other because of the following reasons:

In the instant case the different inventions have achieved a separate status in the art, have separate fields that aren't coextensive, and are capable of supporting separate patents. Further, a prior art reference that would anticipate the claims under 35 USC 102(b) would not render obvious the same claim(s) under 35 U. S. C. 103 (a) with respect to another member. Searching the entire genus would be a burden on the USPTO in terms of time and expense.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Claims 1-34 are generic to a plurality of disclosed patentably distinct species comprising R1, R2, R3, A, and Ar. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

A telephone call was made to Gloria Pfister on 1/13/03 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Binta M. Robinson whose telephone number is (703) 306-5437. The examiner can normally be reached on M-F (9:30-6:00).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Alan Rotman can be reached on (703)308-4698. The fax phone numbers for the organization where this application or proceeding is assigned are (703)308-7922 for regular communications and (703)308-7922 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703)308-0193.
